

# Some Results of ISCRA 2019

Total number participants - 132

Representatives of 12 countries

Oral and poster presentations – 120

Section	Oral	Poster	Total
1. EAS muon component and muon puzzle	12	5	17
2. Energy spectrum and mass composition around and above the knee (direct and EAS measurements).	22	28	50
3. Nucleus-nucleus interactions at high energies (models and experiments).	10	1	11
4. TeV-PeV gamma rays	10	10	20
5. Muon telescopes, muon hodoscopes and muonography	7	15	22
<b>In all</b>	<b>61</b>	<b>59</b>	<b>120</b>

# Publication of conference papers

Organizing Committee has received **61 papers**

1. EAS muon component... – 9
2. Energy spectrum and mass composition... – 26
3. Nucleus-nucleus interactions... – 7
4. TeV-PeV gamma rays – 8
5. Muon telescopes... – 11

The section conveners have to organize the peer-reviewing of the papers, cross-reviewing if necessary.

We ask all the participants to actively take part in this procedure.

**The deadline is 15 July** in order to have possibility to publish the papers this year.

Organizing Committee

thanks

all participants and especially the conveners, for  
active work at ISCRA 2019!

We wait you at ISCRA 2021!
